Why these prices are reasonable

Top banner –This is prime advertising space because it appears across all pages. It offers advertisers repeated exposure.

Homepage banner 1 –It is positioned immediately after the slider, making it one of the first advertising spaces visitors encounter.

Homepage banner 2 –It remains visible on the homepage but is positioned further down.

Sidebar –The larger 300 × 600 advert deserves a higher price because it occupies more screen space.

Inside news stories –It targets people who are already reading news content.

Above footer –It benefits from appearing across all pages; although visitors need to scroll down to see it.
